- Prices listed are for one.
- Additional years of coverage can be purchased at the original rate as long as coverage does not lapse.
- Equipment covered under a plan purchased prior to 2/28/2007 is grandfathered at the pre-2/28/2007 rate as long as coverage does not lapse (subject to equipment pre-sunset serviceability).

The **Gerber Guardian Plan** covers parts, labor, shipping charges, and on-site repair if necessary.  
 The **Gerber Service Partners Plan** covers parts and factory labor when equipment is returned to the factory for repair. The customer is responsible for freight charges both ways.  
 Please see the Plan Enrollment Form for complete terms and conditions.

**Discount Specials available on Gerber Service Plans:**

- For equipment in warranty: Save 5% on a two, three, or four-year plan. Save 10% on a five-year plan.
- For equipment being repaired: Save 20% on a Service Plan when purchased with a Parts & Labor Repair.

Service Plan coverage is available only for equipment that is in normal working condition. Service plan coverage begins upon expiration of any existing warranty or service plan coverage. For equipment not currently under warranty or service plan, service plan coverage begins 90 days after receipt of payment and may require a qualified inspection at Gerber's current service fees.

**Parts & Labor Repairs:** Non-working equipment that is out of warranty or not covered under a Service Plan will be evaluated at the factory and repaired under Gerber's published Parts and Labor Repair rates. The customer is responsible for freight charges both ways. On-site repairs, where applicable, will be quoted per incident. Please refer to the Gerber Service Price List – FastFact Document #2009.
