### Gerber Launches Advanced OMEGA™ 2.5.1 Software Version

SOUTH WINDSOR, Conn. – Gerber Scientific Products announces the launch of GERBER OMEGA 2.5.1, a maintenance release version of the original OMEGA 2.5 design and output software. The 2.5.1 version builds on the software’s rock-solid feature set and offers new features and improvements on existing features. It enables users to create sophisticated, technical or advanced layouts while maintaining simple, consistent operations. OMEGA 2.5.1 is a **FREE download from [www.gspinc.com](http://www.gspinc.com)** for existing OMEGA 2.5 customers.

“OMEGA 2.5.1 offers new features and enhancements, text and language tools, as well as menus and functions that provide advanced capabilities for both beginners and experts. Users will save time and effort when they utilize OMEGA’s complete package,” stated Dana Goodale, director of software solutions, Gerber Scientific Products.

Goodale went on to say, “Like the original OMEGA 2.5 software version, the maintenance upgrade offers a long list of user-friendly features and benefits:”

- Flip and rotate images feature in Composer eliminates the need to switch to a third- party program.
- Improved Decal Cut allows for the setting of a white-point threshold in images, reducing the incidence of generating a decal cut that is a square or rectangle.
- Smaller file sizes with high resolution images due to the compression of thumbnail images enables a more efficient use of computer space.
- Multiple user interface improvements to menus, context menus, and layers improve user productivity.
- Updated Spell Check includes multiple languages and custom user dictionaries.
- An updated GerberColor™ Spectratone Palette includes all spot color combinations including the newest colors, Traffic Gray and Vivid Blue.

“OMEGA 2.5.1 is available to existing GERBER OMEGA or GRAPHIX ADVANTAGE customers as an upgrade, and it is a free download at [www.gspinc.com](http://www.gspinc.com) for existing OMEGA 2.5 customers. Version 2.5.1 is also the standard software version that ships with all new OMEGA shipments and upgrades,” concluded Goodale.

OMEGA 2.5.1 is part of Gerber’s Matched Technology System™ which provides users with a complete, integrated start-to-finish solution. With Gerber products and Gerber’s renowned Matched Technology System, there are no surprises, just cost-effective, top-quality results. For more information or a demonstration of OMEGA 2.5.1, call Gerber at 800.222.7446, visit our website at [www.gspinc.com](http://www.gspinc.com), or contact your local distributor.
