Gerber Scientific Products Releases New White Security Label Stock

SOUTH WINDSOR, CT – January 19, 2010 – Gerber Scientific Products, a worldwide leader in sign making and specialty graphics systems headquartered in South Windsor, CT, is proud to announce the immediate release of their new White Security Label Stock, an EDGE READY™ product. Gerber Scientific Products is committed to expanding our label stock product line with new options that are tested by our material qualification process and function seamlessly with our Gerber EDGE FX™ thermal transfer printing system.

After many customer requests, we have developed the new White Security Label Stock in both 15" x 10 yd and 15" x 50 yd sizes. This 2-mil white polyester film is used in the production of identification markings with tamper-evident protection. Once the Gerber White Security Label Stock is applied, it cannot be removed without leaving a "VOID" pattern. If removal is attempted, the "VOID" pattern will be left behind and the label cannot be reapplied.

Find out more about Gerber's White Security Label Stock and many other EDGE READY products by contacting Gerber at 800-222-7446 or visiting our website at www.gspinc.com.

About Gerber Scientific Products
