

## LexEDGE 5 mil Discontinued

---

Effective immediately, LexEDGE II 5-mil has been discontinued. This discontinuation is necessary due to difficulties producing material to support the low volume of this unique 5-mil construction. Customers who use this material can find the same great print performance with LexEDGE II 10-mil, our standard product.

All open orders for LexEDGE 5-mil will be canceled. If you wish to convert your open order from 5-mil to LexEDGE II 10-mil, please contact Gerber Sales Support.

This chart shows both discontinued and suggested replacement part numbers.

<b>DISCONTINUED</b>		<b>SUGGESTED REPLACEMENT</b>
