

Go Green, Get Green

SPRING SPECIALS

Gerber is pleased encourage companies to persue environmentally safe products and practices with exceptional pricing on our eco-friendly flatbed inkjet printer, the Solara ion™ , during the spring months.

Get up to \$19,000 in total savings!

Gerber's revolutionary Cold Fire Cure™ and GerberCAT™ inkjet printing technology makes the Solara ion one of the world's most environmentally friendly inkjet systems.

With no ozone or VOC emissions, reduced power requirements of its low temperature UV lamps, and the ability to print directly on to a variety of substrates, including biodegradable and recycled sign board, the ion is the industry's leading green solution for inkjet printing.

Two Energy Efficient USA-Built Solara ion Models to choose from	
Solara ion^x with Roll-to-Roll \$88,995 List	Solara ion^x Flatbed-Only \$79,995 List
